

ECM² DATA INTEGRATOR

Incident Data... right to your Tracking Software!

Wouldn't it be great to collect your incident data and have it integrate right into your incident reporting software? Look no further!

The "ECM² Data Integrator" is what you'll need to take that transmitted emergency call data and easily integrate it into "Firehouse™" or any other incident tracking software.

Reduce the number of errors and eliminate manual entry by automatically populating your incident management system using the "ECM² Data Integrator".

- Integrate with your incident tracking software
- Automatically populate your incident management system saving you valuable time
 - Fill out complete forms in minutes
 - Reduce errors by not having to manually enter all of your crucial data
- Ability to review data prior to uploading into your system
 - Secure data storage
 - Real-time query
- Available as a download or in a packaged box with printed manual
 - Technical support available
